

CompuMed to Provide ECG Telemedicine and CardioGramKids Services to The Saban Free Clinic and School Health Centers System Wide

Los Angeles – February 2, 2011 – CompuMed, Inc. (NASDAQ OTC: CMPD) (<http://www.compumed.net>), a telemedicine and medical informatics company, has entered into an agreement with The Saban Free Clinic and school health centers to provide CompuMed's electrocardiogram (ECG) telemedicine and CardioGramKids® services to the four community clinics and school health centers operated by the Clinic. Now in its 43rd year, The Saban Free Clinic (formerly The Los Angeles Free Clinic) provides nearly 90,000 patient visits annually to the uninsured, teens, and other vulnerable populations in the Greater Los Angeles area. CompuMed will provide the Clinic with the company's ECG telemedicine equipment and with over-reads performed remotely by CompuMed's cardiologists and pediatric cardiologists.

CompuMed will also provide The Saban Free Clinic with the company's CardioGramKids Pediatric Screening services at the school health center the Clinic operates for the Los Angeles Unified School District at Hollywood High School. CompuMed's CardioGramKids program was designed in tandem with pediatricians and other healthcare providers to provide ECG screening services to children and teenagers prior to taking psychotropic medications or participating in school or afterschool sports programs.

"We are grateful to CompuMed for significantly enhancing our ability to provide preventive cardiac health services to the Los Angeles community," said Donzella Lee, M.P.H., Director of Operations at The Saban Free Clinic. "With CompuMed's ECG telemedicine technology, the Clinic can provide patients with state-of-the-art electrocardiogram analysis services in a cost-effective and convenient manner," added Lee.

"We are pleased to be working with L.A.'s preeminent community clinic organization to enhance the delivery of preventive medicine to the children and adults of Los Angeles," said CompuMed's lead cardiologist David M. Frisch, M.D., F.A.C.C. "By implementing CompuMed's ECG telemedicine program system wide, The Saban Free Clinic is likely to prevent or minimize a large number of acute or long-term cardiac problems and save lives," Dr. Frisch added.

“With the extension of our ECG telemedicine and CardioGramKids school health center programs into the major community clinic organizations, CompuMed continues to play a leading role in bringing ECG telemedicine to a wide variety of healthcare settings,” said CompuMed CEO Maurizio Vecchione. “It’s clear that the future of healthcare will rely heavily on the Internet and that companies in the telemedicine field like CompuMed are well positioned to prosper.”

About CompuMed:
