## **COMPUMED ENABLES MOBILE TELEMEDICINE FOR ALL CARDIOLOGISTS INTERPRETING ECGS FROM ALIVECOR HEART MONITOR SYSTEM**

LOS ANGELES, CA (November 19, 2013) - CompuMed, Inc. (OTCPink: CMPD), the leaders in providing enterprise telemedicine solutions, has begun interpreting electrocardiograms (ECGs) that are generated from the revolutionary AliveCor Heart Monitor System.

AliveCor patients now have instant access to CompuMed's network of U.S. Board-Certified cardiologists. Through the AliveECG app., AliveCor patients can request real-time interpretations of single-channel electrocardiogram (ECG) rhythms. CompuMed cardiologists are providing AliveCor patients with clinical ECG rhythm reports within 24 hours.

"Clinically speaking, the ability for CompuMed and AliveCor to provide patients with real-time access to Board-Certified cardiologists through the AliveECG app. has the potential to dramatically improve patient care. This solution enables virtually anyone, regardless of their location, to leverage the expertise of top cardiologists," said Dr. David Frisch, Medical Director of CompuMed. Doctor Frisch is an Associate Professor of Clinical Medicine at UCLA's David Geffen School of Medicine, Director of the Center for Heart Attack and Stroke Prevention, and a founding board member and director of the Cedars-Sinai Physicians Association.

"We are thrilled to be partnering with AliveCor to deliver top clinical care at the push of button by leveraging our network of U.S. Board-Certified cardiologists," said W. Scott Rombach, CompuMed's President and CEO.

"We are delighted to be working with CompuMed to help patients manage their heart health", said Euan Thomson, CEO of AliveCor. "With this partnership, patients and their physicians now have direct access to Board-Certified cardiologists whenever and wherever using the AliveECG app. This 24/7 connectivity between patients and expert medical services takes mobile health to the next level."

CompuMed's Enterprise Telemedicine Solutions provide the highest level of clinical care to patients by enabling real-time access to Board-Certified specialists. The company's

open architecture delivers end-to-end, cloud-based telemedicine solutions that are fully integrated with world-class medical devices.

The AliveCor Heart Monitor is the only FDA-cleared mobile ECG recorder that supports both iPhone and Android compatible smartphones. This device is available for purchase in the United States by medical professionals and patients with prescriptions.
