RESPONSIVE SUPPORT

- 24/7/365 Availability
- Specialized Training (Remote or Onsite)
- Live Assist / Remote Device Access

WHAT CUSTOMERS SAY

Before CompuMed, we would sometimes wait forever for a report. After CompuMed, the report prints off fast, and in the appropriate place. We've got it going three places, so it's going to get where it needs to be - and it's done.

How does it benefit us to work with y'all? I'm gonna say it in one word, okay? Speed.

It'll hit the EMR and just do what it's supposed to do without anybody thinking. And that's really what you want.

The way they structure the report makes it easy to quickly determine what the issue is.

CompuMed stepped in and made things happen super fast. We worked with their IT people and they worked with our IT people and we got this up and running in a matter of about a week.

So now when an image comes into our PACS, we have it set up to send a structured report and everything. We just simply click on the patient and say, 'Hey, send it to CompuMed.
