

Trusted Cardiology Reading for Hospitals

CompuMed delivers dependable remote Cardiology expertise for hospitals and acute care facilities, enabling faster study interpretation and giving physicians the diagnostic information they need sooner.

Helping Hospitals Keep Cardiology Services In-House

Keep Services Local

- › Retain Revenue by Reducing Patient Transfers
- › Access Reliable, 24/7 Reading Capacity
- › No Added Fixed Physician Staffing Costs

Free Up Local Physicians

- › Shift Non-Patient-Facing Reading Workload
- › Spend More Time Focused on Patients and Direct Care
- › Reduce Burden During High-Volume Periods

Timely Patient Care

- › Move Studies Through Interpretation Faster
- › Prevent Care Decisions from Sitting Behind a Backlog
- › Routine and STAT Options Aligned to Hospital Needs

Add Capacity When Needed

- › Primary Reading Partner or Overflow Resource
- › STAT Option, Weekend, and Holiday Coverage
- › Long-Term Service-Line Extension

ECG & Echo Reading,
Holter & Event Monitors,
Coronary Calcium Scoring
